Dear Sir

Yours of 4 just rec. + [?] [?].

In reply I have to say that I do not thoroughly understand your letter and that I have no family physician + never had one and am unable to write having lost an arm and the best part of my other hand

but will be perfectly willing to be interviewed by any competent man you may find. As you say in your letter that you will send a man at your own expense. But under the existing circumstances and from all I can learn from your letter I do not feel able to comply with your request by mail.

Very Respy
